# TRACK AND FIELD

## FLAG SYSTEM

Coaches please note “Track and Field” is run by a system of FLAGS and TIMES (the times are approximations and we may either run a little ahead or a little behind) therefore it is very essential that you pay close attention to the color of FLAG being flown. FLAGS always take precedence over TIME. A weather balloon will be flown at the Operations Center area with the FLAG attached in order that all venue sites will operate under the appropriate FLAG.

At approximately 8:30 the GREEN FLAG will be raised and first call will be given for the 400 METER WALK. A second and third call will be given and by approximately 8:45 this event will begin. No other events will take place until all divisions of those events have been run. As soon as those events are finished the RED FLAG will go up and the athletes competing in the 50 METER MOTORIZED WHEELCHAIR SLALOM will be given three calls to be at their event. Then, still under the RED FLAG, the remaining events will be called. Then the YELLOW and then the BLUE, etc. as the day goes on. If an athlete is not at an event at his/her scheduled time they will be scratched and not allowed to compete in that event. COACHES ARE RESPONSIBLE FOR MAKING SURE THEIR ATHLETES ARE AT THEIR EVENTS ON TIME (OLYMPIC TOWN IS FUN BUT IS NOT AN EXCUSE FOR MISSING AN EVENT.)

### **ATHLETE’S AGE GROUP**

The Age Group of an athlete is determined by his/her age as of the opening day of the Games. An athlete may compete in an Area or County Games as an eleven year old (8-11 age group) but then have a birthday prior to coming to the State Games. This would change the age group in which the athlete would compete in at the State Games to the 12-15 age group. Please be aware that this situation may arise and do not go to an Event Director and try to get your athlete changed on a heat sheet. Also, due to the limited number of athletes who participate in Aquatics, we sometimes have to cross over age groups/gender in order to have a sufficient number in a division. Please remember that we division by ability first and we may have to swim an eleven year old against a thirty year old in order to have competition. Otherwise, these athletes may be the only athlete in their age group and event and will not have anyone to compete against. Also, the event director has been instructed to disqualify any athlete who may exceed the 15% divisioning rule and to re-division that athlete in an appropriate heat. This will be the case if an individual athlete far surpasses the rest of the swimmers/runners in a heat.
